Additional Technical Information

Raw Material Full Botanical / Chemical Name	AgriBind™ (Kaolin) is a naturally occurring aluminosilicate sold extensively into the feed industry to have a favourable effect on the welfare of any species or category of animal. It is EU approved as a feed binder, listed as E 559.
Part Used	Kaolin
The material is Food Grade	NO, Feed grade
Cultivated / Wild	Mineral
Country of Origin	UK
Country of Manufacture	UK
CAS Number	1332-58-7
EC/EINECS Number	310-194-1
Shelf Life from Date of Manufacture	Min 2 Years
Suitable for Vegetarians?	Yes
Suitable for Vegans?	Yes
Storage Conditions	Storage facility is clean, dry, sanitary, well ventilated and able to minimise entrance of dust, dirt, insects, birds, rodents and other animals. Sources of odour are controlled to prevent contamination. These sources include, but are not limited to, chemicals, insecticides, engine exhaust, cleaning products, fuel, sewage and refuse. Handle the product carefully to prevent rips, tears, marks and damage to the integrity of the packaging. Rotate product so that the oldest material on hand is used before newer material. Like all finely divided mineral powders, these products can agglomerate over time. These agglomerates are soft and are usually re-dispersed with normal handling but they might cause problems in unattended volumetric feeding equipment. It is primarily for this reason that we recommend the rotation of stocks.

Please note that surveillance testing may mean that not all the parameters stated on this specification are tested for every batch.

The allergen information is supplied by the manufacturer, we have not tested for each individual allergen to ensure they are not present. The information given is based on a documented risk assessment and is accurate to the best of our knowledge. If you intend to make a voluntary "free from" claim on your pack, additional testing may need to be carried out. For technical and labelling guidance, you should always speak to the competent authority for the market or member state in which the final products are placed.
